## TECHNICAL SKILLS

**Frontend:** React 18, TypeScript, JavaScript ES6+, Vite, Hooks, Tanstack Query

**Backend:** PHP, SQL, Java, Apache, Springboot, Node.js, Express, socket.io

**Style/UI:** TailwindCSS, Bootstrap, Sass, responsive design

**Architecture:** Modular componentization, custom hooks, render optimization, lazy loading, local and remote state management, best practices

**Tools:** Git, VS Code, consumption of REST APIs

**Testing:** Jest, React Developer Tools

## EXPERIENCE

### [Frontend Developer \(Internship\) — Hive Mind Solutions](#)

2025 – Present

- Development of real features in a production SaaS application using React and TypeScript.
- Creation of reusable components with modular architecture and strict typing.
- Integration of REST APIs and handling business logic on the client side.
- Refactoring components to improve maintainability and performance.
- Working with Git, PRs, code reviews, and professional quality standards.
- UX/UI improvements.

- Navigation testing in development and staging environments.

## FEATURED PROJECTS

### [Espacio Dependencia — React, TypeScript, Tanstack Query, HeroUI](#)

SaaS project currently in production for the social and healthcare sector. Development and maintenance of the user interface, API consumption using Tanstack Query, state and complex form management, and creation of reusable components with HeroUI.

## EDUCATION

Higher Degree in Web Application Development — Ilerna

2023 – 2025

Intermediate Degree in Microcomputer Systems and Networks — IES Castelar

2020 – 2022

## LANGUAGES

- Native Spanish
- English C1

## COURSES

- JavaScript Design Patterns — OpenWebinars
- REST API Design with Spring Boot — OpenWebinars
